

## UTHF 2005 - eSecurity Roundtable Discussion

***We are calling for information security entrepreneurs' participation in our UTHF eSecurity conference***

***On***

***October 21, 2005, Santa Clara, CA***

UTHF 2005 now is looking for security companies and security professionals to participate the roundtable discussion on October 21, 2005.

This will be a very good opportunities, if you want to do some network/information security related businesses with Taiwan, including:

- Explore business opportunities in Taiwan's market
- Find your OEM partners in Taiwan
- Partner with Taiwan security vendor to get more business
- Invest onto new security entrepreneurs
- Sell your intellectual property to Taiwan's company
- Find founding or support for your security company
- Showcase your new security product and solution

Delegates form both Taiwan's public and private sectors as well as UTHF speakers from Taiwan will join this roundtable discussion.

Please click here to show your interests to participation.

### The UTHF Conference

The 2005 US-Taiwan High Tech Forum (2005 臺美高科技論壇, UTHF 2005) is organized by the [North America Taiwanese Engineers' Association \(NATEA\)](#) and the Department of Engineering and Applied Science of [National Science Council \(NSC\) Taiwan](#), and [Science and Technology Division of Taipei Economic & Cultural Office in San Francisco](#). It is co-sponsored By Industrial Development Bureau (IDB) of Ministry of Economic Affairs (MOEA), Institute for Information Industry (III) and Industry Technology Research Institute (ITRI).

This symposium promotes Taiwan's information security technologies and strategies, in order to raise awareness of new security threats while enabling knowledge exchange between security communities of both Taiwan and Silicon Valley. The theme of this year's UTHF Symposium is "e-Security" that is essential for the comprehensive

global network security development. The objectives for holding this UTHF symposium are:

- To facilitate the technological experience exchange and interaction between the US and Taiwan's network security experts in the stage of program executions,
- To gather experts and associates across the Pacific from Taiwan and US for sharing their knowledge and experiences in the information security arena,
- To provide business opportunities for enterprises, entrepreneurs and VCs alike attendees.
